**Custom Order Specification Sheet**

Document No.:

<b>Customer Name</b>				<b>Order No.</b>	
<b>Product Name</b>	Industrial Integrated Ultrasonic Cleaner with Lab Level Generator Build-in			<b>Customer P.O. No.</b>	
<b>Model</b>	YML2480 88L 1200W 40kHz	<b>Quantity</b>	1pcs	<b>Order Date</b>	
<b>Tank Material</b>	304	<b>Thickness</b>	2mm	<b>Delivery Date</b>	
<b>Shell Material</b>	201	<b>Thickness</b>	1mm	<b>Packaging Method</b>	Wooden Box
<b>Tank Size</b>	550x400x400mm			<b>Voltage</b>	single phase 220 v US Plug
<b>Overall Size</b>	690x540x750mm			<b>Packaging</b>	940x670x940mm
<b>Ultrasonic Design</b>	Submersible Plate <input type="checkbox"/> Side-mounted <input type="checkbox"/> Bottom-mounted <input checked="" type="checkbox"/>			<b>Solvent Requirement</b>	Water-based <input type="checkbox"/> Organic-based <input type="checkbox"/>

**As per Client's Spec Custom**

Capacity: 88L  
 Ultrasonic Power: 0 - 1200W (Built-in Generator)  
 Number of Transducers: 24 pcs (12 on the front/back walls and 12 on the sides or 24 at the bottom; minimum water level marked inside the tank)  
 Frequency: 40khz  
 Heating Power: 3000w (Equipped with two industrial fiber ceramic heating plates)  
 Voltage: single phase 220 v US Plug  
 Tank Material: SUS304 (T = 2.0mm)  
 Shell Material: SU201 (T = 1.0mm)  
 Temperature Control: 20-80°C  
 Timer Range: 1-9999s  
 Built-in Generator: Lab Grade; 1200W, 40kHz, 220V  
 Digital Control: Industrial drive board with LCD display  
 Design: Integrated design with built-in generator, low noise with sound-absorbing cotton design  
 Control Panel: L-Series vertical display panel (with external waterproof casing)  
 Control Functions: Power adjustable, Degas mode, Memory function (auto recall of previous settings)  
 Drainage: Bottom-mounted SUS304 stainless steel drain valve  
 Accessories: Durable stainless steel wire basket, heavy-duty universal wheels, lifting handle lid (Hydraulic rod-assisted lid with side handles)  
 Warranty: 1-year warranty, lifetime technical support

**- Remarks:**

Drain Valve: Must use a stainless steel drain valve.  
 Soundproofing: Sound-absorbing cotton must be installed.

**- Packaging:**

Packed in wooden cases. Weight 120kg  
 Marking: Shipping marks and wooden case identification labels must be affixed.

**- Labeling & Documentation:**

Branding: English brand logo and English parameter labels on the machine.  
 Manual: English user manual included.

**- Delivery Date:**

about 7 working days

<b>Control System</b>	Separate Control Box <input type="checkbox"/> Built-in <input checked="" type="checkbox"/> Power Adjustment Function <input type="checkbox"/> Ammeter <input type="checkbox"/> Electrical Cabinet Built-in <input type="checkbox"/>				
<b>Cooling Section</b>	Cooling Zone Height:		Number of Cooling Fins:		Cooling Fan Power:

**Sender Info:** (Note: For every completed unit, please take 5 machine photos and 1 full shipping label photo before dispatch.)
